

**Organizing Committee
invites you to take part in
the IV International Scientific and Technical Conference
«Metrology of physicochemical measurements»,
which is going to take place
on September 17-19th, 2019, Suzdal, Russia**

Organizers

- **FSUE «VNIIFTRI»**, Federal Agency of Technical regulation and Metrology (**Rosstandart**) – scientific support
- **LLC STC «NAVITEST»** - Technical support and organization of the conference

The conference subjects

- Electrochemistry: pH and pX measurements, etc.
- spectrometry, chromatography, etc.
- reference materials
- standards, key and pilot comparisons, traceability
- measurements of disperse parameters of heterogeneous area
- zeta potential
- measurements of air ions
- measurements of properties and parameters of solids
- physicochemical measurements in applied and legal metrology: ecology and environmental protection, work areas, clean rooms, food, water, health care, basic atmospheric parameters, etc.
- and other area related to physicochemical measurements

The task of the conference

- physicochemical measurements in applied and legal metrology - problems and successes
- the exchange of scientific and technical information

Forms of participation

- with presentation
- with poster
- listener

Publication

- Presented abstracts will be published before the conference in a special publication "Metrology of Physicochemical measurements. Abstracts"
- After a review, articles of the presentations will be sent for publication in scientific journal

Registration fee

20 000 Rub. (including VAT 18%)

Additional fee

Publication of the company's advertising in the Conference Program and in special publication of abstracts – 15 000 Rub. for one page (A4)

Deadline for submission of the abstracts and advertising materials - **August 1, 2019**
